A report on the ^{chart} ~~table~~ "Visits to national museums and galleries in England"

The purpose of this report is to analyze the ^{chart} ~~table~~ "Visits to national museums and galleries in England" and give recommendations on what could be done to increase people's attendance of museums and galleries.

On the chart, we can see that museums which have introduced admission charges appeal ~~to~~ ^{to} the people the least, and that the increase of attendance of museums and galleries ~~from~~ ^{since} 2015 ~~to 2017~~ ^{is} substantial.

Natural History Museum and Science museum were the most visited ~~items on the chart in 2013~~ ^{museums} ~~the chart~~ in 2013 with their attendance equalling to 3,7 mln and 3,8 mln respectively, but, in 2015, after the introduction of admission charges, those numbers dropped to 1,6 mln and 1,3 mln. The most popular museum of 2017 is the British museum with 5.6 mln visits, whereas the least popular museum is the Science museum, which only had 1.6 mln visits. Also, ~~the attendance~~ we can see the trend of attendance ~~either~~ in 2015 getting either ~~twice~~ approximately twice as much or twice as less compared to 2013.

I would recommend Natural history museum and Science museum to cancel admission charges, on the other hand, both Galleries might add something ~~history or sci~~ related to history or science to their collections.

In conclusion, at this rate, by 2019 total attendance might increase, and Natural History Museum and Science Museum might want to draw on their past experience.
